MASONITE® INTERIOR DOORS
Masonite® Interior Doors at a Glance

**PALAZZO SERIES®**

- **Bellagio**
- **Capri**
- **Treviso**

High-definition panels with deep, rich embossments and raised moulding impart an air of elegance to any space.

**WEST END COLLECTION®**

- **Berkley**
- **Hamel**
- **Melrose**

Embossed lines and minimalist designs that add sophistication & bold style through understatement.

**HERITAGE® SERIES**

- **Lincoln Park**
- **Logan**
- **Winslow**

Combines the classic lines of a wood shaker door with the durability of molded panel engineering.

Decorate with Doors

Add Color to Your Home with Masonite Molded Doors
Personalize your interior door to reflect your unique style.

Feature lines distinguish the architectural correctness of authentic stile & rail wood doors

Cheyenne® Riverside® Saddlebrook®

2, 3, 4 and 6 Panel
2 Panel Roman
2 Panel Arch-Top
4 Panel Arch-Top
6 Panel Prefinished

Interior Doors at a Glance
SURVEY SAYS...
When given a choice between Safe 'N Sound' or hollow core doors, 100% OF CUSTOMERS PREFER SAFE 'N SOUND.*

Ask your representative how to upgrade to a Safe 'N Sound door.

*Qualitative research conducted in 2013.
Solid core doors add more value to a home than standard hollow core doors.

The easiest way to tell if your door is hollow or solid is to simply knock on it. You’ll hear—and feel—the difference immediately.

Safe ‘N Sound doors Quiet a home more than hollow core doors.

Offers the durability, heft & feel of real wood.

1-3/4” THICK fire-rated options.

Green at HEART

The core of our Safe ‘N Sound door is engineered from wheat straw, an annually renewable resource.

5 year warranty

CAN YOUR DOOR PASS THE KNOCK TEST?

MASONITE CLASSICS

Molded Panel Series & Masonite Select™ Collection Notes: Please note that some sizes are only available as a result of being trimmed from a larger facing. The trimming process may result in a stile width that is too narrow to accommodate a standard bore. To machine a standard bore with a 2-3/8" backset on the lock hole and a 2-1/8" diameter bore, the outer stile measurements must be no less than 3-7/16" wide. Many facings have a lockrail that will accommodate a standard bore even when the stile width is too narrow. Please refer to Masonite Molded Door Facing Dimensional Specifications to verify the outer stile measurements or contact your Masonite Interior Door servicing plant. Textured refers to embossed wood-grain. Pre-finished white is available textured only. Not all molded panel designs and sizes are available in all regions as stock products. Please check for special order availability. *Molded Panel actually measures 1’7-13/16”.

Thinner outer style will not affect functionality. Double doors and bifolds are not recommended. Due to manufacturing processes, a 1/8" tolerance is acceptable on horizontal lines.

Note: 48", 60" & 72" bifolds are achieved by doubled 24", 30" & 36" bifolds.
